01 INTRODUCING AIMS CYBERJAYA

AIMS Cyberjaya is AIMS' first purpose-built data centre. It is located in Cyberjaya which is positioned by the Malaysian government as a technology hub.

It is able to cater to hyperscalers, safeguard mission-critical data and afford the same vast interconnectivity synonymous with the AIMS name to customers, making it suitable for companies who require high power usage and large floor space.

Innovation lies at the heart of this dynamic data centre, where solutions and services evolve constantly to sharpen your business edge.

02 BUILT FOR ALL YOUR IT INFRASTRUCTURE NEEDS

CO-LOCATION

- ▮ Configurable cages, suites and racks
- ▮ Cross-connect services
- ▮ 2N UPS (Uninterruptible Power Supply) configuration

DISASTER RECOVERY

- ▮ Recovery consultancy and planning services
- ▮ Disaster recovery management
- ▮ Failover services, professional server hosting and replication

MANAGED SERVICES

- ▮ Includes managed connectivity, infrastructure, security, cloud and more
- ▮ Scalable and customisable solutions
- ▮ Managed by expert SOC engineers

SUPPORT SERVICES

- ▮ Service delivery and provisioning
- ▮ Infrastructure management

- **Tier III-certified data centre** by the Uptime Institute
- Scalable power capacity up to **30MW** to cater for content and cloud service providers
- One of the **largest** telecommunications hubs in the region

03 THE ADVANTAGE YOU NEED IN A DIGITAL WORLD

STAY CONNECTED AND INTERCONNECTED

AIMS Cyberjaya leverages off the established ecosystems at Menara AIMS in Kuala Lumpur and other AIMS points-of-presence in the Southeast Asian region to provide faster, more cost-efficient connections between a larger variety of businesses.

EMBRACE CLOUD INFRASTRUCTURE FOR DIGITAL TRANSFORMATION

AIMS' expertise as a top cloud infrastructure service provider in Malaysia enables it to help Southeast Asian businesses leverage its infrastructure for cloud deployment. It is also the only data centre in Malaysia with direct access to four major global cloud service providers.

REALISE LOW LATENCY AND COST-EFFECTIVE CONNECTIVITY

Customers in AIMS Cyberjaya will have direct access to MyIX, which results in cost-effective connectivity options and lower latency for a better, more reliable user experience.

PREVENT FINANCIAL LOSS FROM POWER DISRUPTIONS

AIMS Cyberjaya keeps data safe by adhering to stringent safety requirements. It has achieved the Uptime Institute Tier III Design and Constructed Facilities certification and completed a Threat, Vulnerability and Risk Assessment (TVRA). It also has concurrently maintainable site infrastructure and on-site auxiliary police.

04 ENGINEERED FOR YOUR ENDURING SUCCESS

POWER SYSTEM	
POWER	Scalable up to 30MW
GRID POWER	2 diversified TNB incoming paths
GENERATOR	Configured for N+1
FUEL TANKS	48 hours
UPS	Multiple UPS systems configured as 2N
TOTAL WHITE SPACE (ESTIMATED)	~240,000 sq. ft.
ENVIRONMENTAL	
POWER	Dual incoming power supply (N+1 system) with MV to LV transformers on every floor
COOLING SYSTEM	N+1 water-cooled system and concurrently maintainable distribution path N+2 configuration of CRAH (Computer Room Air Handler)
SECURITY	
SECURITY	24/7 on-site staffed security authentication access with multi-layered security controls
NETWORK OPERATIONS CENTRE	Round-the-clock monitoring, highly dedicated secure rooms to offer 24-hour support
CONNECTIVITY	
CARRIER-NEUTRAL CONNECTIVITY	Choice of local and global network providers
TELEHOUSING	Available
CERTIFICATION AND SUSTAINABILITY	
Tier III Certification of Design Documents by Uptime Institute	
Tier III Certification of Constructed Facility by Uptime Institute	
Threat, Vulnerability and Risk Assessment (TVRA)	
Green Building Index (GBI)	
Payment Card Industry Data Security Standard (PCI DSS)	
AMENITIES	
Staging Room	Prayer Room
Disaster Recovery Room	Business Suite
Common Pantry Room	Tape Room
Conference Room	Training Room

05 STRATEGIC LOCATION

Cyberjaya is **24m (78.74ft)** above sea level, making it less prone to natural disasters such as floods and earthquakes

Cyberjaya is promoted as a **technology hub** by the Malaysian government

Travel time:

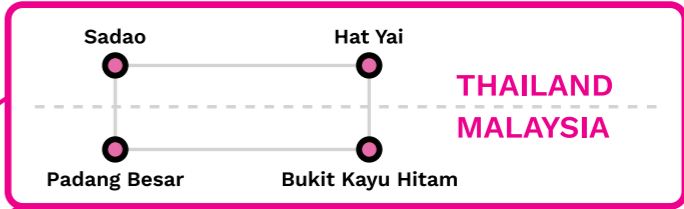

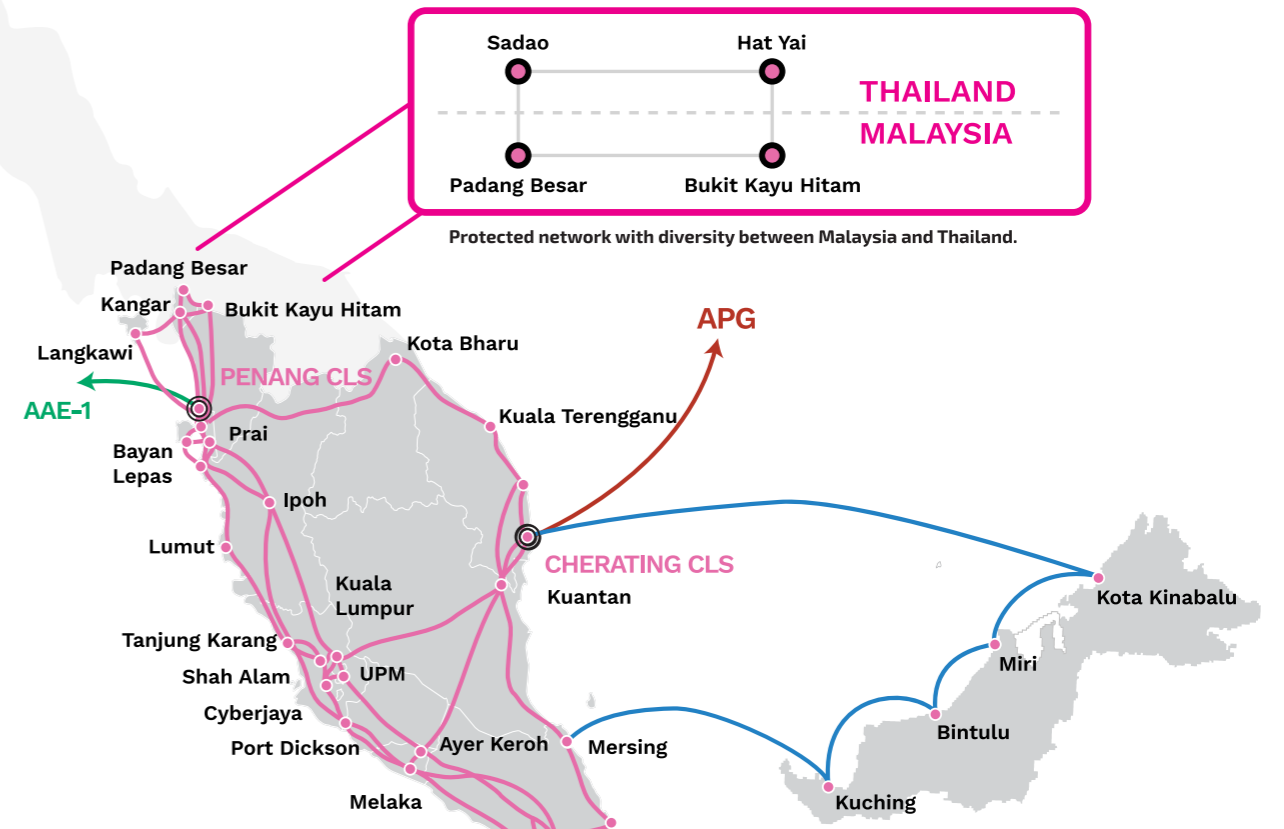

30 mins to Kuala Lumpur CBD

30 mins to Kuala Lumpur International Airport

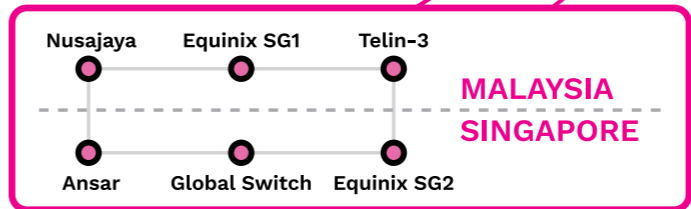

35 mins to Menara AIMS

06 EXTENSIVELY CONNECTED LOCALLY AND GLOBALLY

Housing your data and systems in AIMS Cyberjaya gives you easy access to our domestic and global connectivity solutions, which can help you expand your reach into Asia and the world beyond.

Protected network with diversity between Malaysia and Thailand.
